Fixed Scissor Lift Platform Customized

Heavy-Duty Customizable Solution for Warehousing & Production

Heavy Load in Use

Structure Close-Up

Platform in Raised Position

Dual hydraulic structure

bullet point

Tailored to Your Needs
Adjustable platform size, lifting height, and load capacity

Reliable & Durable Structure
Steel frame / high-strength steel plate, low failure rate

Safety-First Design
Overload protection, hose burst valve, emergency descent

Smart Operation
Wireless control option, automatic leveling

Application
Ideal for production lines, warehouses, loading docks

Safe. Stable. Customized. Everything You Need in One Platform.

Fixed Scissor Lift Platform Customized

Stable | Reliable | Customizable for Heavy-Duty Lifting

bullet point

Seamless Integration with Existing Workflows
Ideal for fixed-position loading, unloading, and material transfer.

Low-Maintenance Design
Fewer moving parts, easy hydraulic access, long service intervals.

Adaptable Installation
Can be pit-mounted or surface-mounted to fit your site layout.

Flexible Operation Modes
Control from upper/lower floor, side panel, or optional wireless remote.

Designed to boost efficiency in high-demand work environments.

Scissor Car Parking Lift Platform

Single & Double Deck Models for Smart Parking Solutions

Structure & Customization

Customized to Fit Your Space
Platform size, lifting height, and load capacity tailored to your garage or building

Stable and Safe Lifting Mechanism
Robust scissor structure with anti-fall and overload protection

Ideal for Private Villas and Garages
Efficient use of vertical space, perfect for residential parking

Single or Double Deck Options Available
One vehicle per level or stacked double parking design

Optional Features
Safety gates, remote control system, emergency stop, limit switch, and more

Maximize Your Parking Efficiency Without Expanding Floor Area

THREE POINTS

Three Points

Livestock Loading/Unloading Platform

Gentle, Efficient & Safe Animal Transfer

Smooth Gradient Platform (≤20°)
Ensures animals walk safely and calmly
Reduces stress and injury during transfer

Application Scenarios
Ideal for farms, livestock markets, slaughterhouses, and meat processing facilities

Customizable Dimensions
Platform size, load capacity, and lift height tailored to your livestock handling needs

Durable & Anti-Slip Surface
Designed to withstand animal weight and frequent washdowns
Anti-slip treatment to prevent slipping during loading/unloading

Compatible with Trailers & Trucks
Aligns precisely for direct vehicle-to-ground access

Easy to Operate
Simple up/down controls for farm workers
Optional remote or manual pump system

Protecting your animals during every move.

THREE POINTS
